

IC&RC has developed practice examinations to assist candidates preparing for their IC&RC examination.

After completing the practice examination, candidates will receive a score report identifying their areas of strength and weakness. In addition, they will receive a copy of the questions, the correct answers, and the answer the candidate selected.

It is important to note the practice examination was not developed to be an indicator of actual performance. Candidates should still ensure they prepare appropriately for their examination based on their individual knowledge and skills and not solely on the results of their practice examination.

Links to each practice examination can be found below:

Link to practice exam	Number of practice questions	Cost (USD)
